Hello,

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Still, not too much.

My changes in the TBA draft are in track changes mode in the attached document. I developed several tables and a figure to aid in my own analysis. They are referenced in the text for your convenience, and included as a separate document "...MOA tables_v2". They are still fairly rough, since I have no idea if you'd like tables/figures in the draft or appendix materials, so I figure that they can be refined if desired, or the references to them in the text can simply be deleted.

I also included the Excel spreadsheet where I collected study information, just for completeness.

Finally, I didn't review the ETBE draft, but I was looking at sections of it (for mention of thyroid or TSH effects) and I

Deliberative Process / Ex. 5

I made a comment to that effect in track changes mode, and it's on page 1-120. Note that the statement as written would be correct *except* for the single paper I note.

I hope this is what you wanted, and is in some way helpful. If you'd like me to try and revise Table 1.x.x.3 to make it shorter and more useful as a summary table, just give me an idea of what you'd like to see.

Hello all,

Just a reminder that we are working to have all the items on the ETBE/TBA ERC comment list addressed by the end of this week. I know many of you have been working very hard and it is much appreciated!

I have included Samantha's e-mail from May 12th below for additional details. Please let me know if you have any questions.

Thanks all!

Best regards,

Andrew

Subject: ETBE/TBA: getting to public release!

Hi all,

Thanks for getting together to discuss the next steps for getting these drafts to public release. Thanks also to everyone for agreeing to pitch in! I've updated the ERC Comment Summary table (minor changes) and attached here. As we discussed, use the following protocol for addressing your piece:
